PROFESSIONAL SUMMARY

Frontend Developer with 4 years of experience designing, developing, and maintaining scalable enterprise web applications using React.js, TypeScript, JavaScript (ES6+), Redux Toolkit, React Query, Material UI, HTML5, CSS3, Bootstrap, and REST APIs.

Experienced in delivering end-to-end frontend solutions for Insurance, ERP, CRM, Fleet Management, Education, and E-commerce platforms by building responsive dashboards, AI-assisted dynamic forms, reusable component libraries, and secure authentication systems.

Strong expertise in component-based architecture, API integration, performance optimization, responsive UI development, Agile methodologies, mentoring junior developers, and leveraging AI-assisted development tools to improve engineering productivity while maintaining production-quality code.

CORE COMPETENCIES

- Frontend Development• React.js Development• Enterprise Web Applications
- Component-Based Architecture• Dashboard Development• Dynamic Forms
- REST API Integration• JWT Authentication• Performance Optimization
- Responsive Web Design• Agile & Scrum• AI-Assisted Development
- Code Review & Mentoring• Team Collaboration

TECHNICAL SKILLS

Frontend:
React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Bootstrap, Material UI, Responsive Web Design
State Management & Data Fetching:
Redux Toolkit, Context API, React Query, Axios, Fetch API
Authentication & Security:
JWT Authentication, Protected Routes, Role-Based Access Control
UI Development:
Dashboard Development, Dynamic Forms, Reusable Components, Responsive UI, Figma, Wireframing
Performance Optimization:
Component Optimization, Lazy Loading, Image Optimization, Code Refactoring
Build & Collaboration Tools:
Git, GitHub, Jira, Vite, Webpack, npm
AI-Assisted Development:
Cursor (Antigravity), OpenAI Codex, ChatGPT, Prompt Engineering

PROFESSIONAL EXPERIENCE

Frontend Developer | *Shaurya Technosoft Pvt. Ltd.*
01 July 2022 – Present

- Develop enterprise-grade web applications using React.js, TypeScript, Redux Toolkit, Material UI, HTML5, CSS3, and JavaScript.
- Build responsive dashboards and reusable component libraries for enterprise applications.
- Design and implement AI-assisted dynamic forms to streamline business workflows.
- Integrate REST APIs using Axios and React Query.
- Implement JWT-based authentication and role-based authorization.
- Develop reusable React components and shared utility modules to reduce duplicate code and improve maintainability.
- Optimize frontend performance using image optimization, lazy loading, efficient rendering, and reusable architecture.
- Collaborate with backend developers, UI/UX designers, QA engineers, and project managers in a 10-member Agile development team.
- Participate in sprint planning, daily stand-ups, code reviews, bug fixing, and production deployments.
- Mentor junior developers through code reviews and technical guidance.
- Leverage AI-assisted development tools including Cursor (Antigravity), OpenAI Codex, and ChatGPT to automate repetitive tasks, accelerate development, and maintain production-quality code.

PROJECTS

Insurance Seva Desk (ISD)
Domain: *Insurance Management System*
Technologies: *React.js, TypeScript, Redux Toolkit, Material UI, React Query, REST APIs*

- Developed the complete frontend application using React.js and TypeScript.
- Designed responsive dashboards for policy management and claims processing.
- Built AI-assisted dynamic forms for insurance workflows.
- Integrated REST APIs using Axios and React Query.
- Developed reusable UI components for consistency across modules.
- Implemented JWT authentication and role-based access control.
- Optimized application performance through reusable architecture and efficient rendering.

NexGate (ERP)

Domain: *Enterprise Resource Planning (ERP)*

Technologies: *React.js, TypeScript, Redux Toolkit, Material UI, REST APIs*

- Developed complete frontend modules for ERP business operations.
- Built responsive dashboards for operational reporting.
- Created reusable React components and shared utility modules.
- Developed AI-assisted dynamic forms for multiple business processes.
- Integrated REST APIs and implemented CRUD functionality.
- Improved application performance using rendering optimization and reusable architecture.

Fleet Express GPS

Domain: *Fleet Management & GPS Tracking System*

Technologies: *React.js, TypeScript, Redux Toolkit, Material UI, REST APIs*

- Developed responsive frontend modules for vehicle tracking and fleet management.
- Built dashboards for GPS monitoring and operational analytics.
- Integrated GPS tracking APIs with backend REST services.
- Developed reusable UI components and dynamic forms.
- Optimized frontend performance across desktop and mobile platforms.

BSK (CRM)

Domain: *Customer Relationship Management (CRM)*

Technologies: *React.js, TypeScript, Redux Toolkit, Material UI, REST APIs*

- Developed complete CRM frontend modules using React.js.
- Built responsive dashboards for customer and business management.
- Developed reusable React components and dynamic forms.
- Implemented CRUD functionality with REST API integration.
- Worked on authentication, role-based authorization, and responsive UI implementation.
- Improved maintainability using reusable component architecture.

KEY ACHIEVEMENTS

- Successfully delivered 4 enterprise-grade React.js applications across Insurance, ERP, CRM, and Fleet Management domains.
- Built reusable React component libraries that reduced duplicate code and improved maintainability.
- Leveraged AI-assisted development tools (Cursor, OpenAI Codex, and ChatGPT) to accelerate frontend development while maintaining engineering quality.
- Developed AI-assisted dynamic forms for complex enterprise business workflows.
- Mentored junior developers through code reviews and technical guidance.
- Improved application performance through image optimization, reusable architecture, and React rendering optimizations.

EDUCATION

Bachelor of Engineering (Computer Engineering)

Bharat Ratna Indira Gandhi College of Engineering Solapur (BIGCE)

LANGUAGES

English • Hindi • Marathi • Telugu
